

### **SCLT PUBLIC PRESENTATION TEAM**

The Senior Citizen Liaison Team (SCLT) is a young charity of 15 volunteers that was formed in 2009 to provide a tailored safety education service for the growing older adult population in the Bristol and wider Somerset area.

To convey our message of home and personal safety for the older adult population, we usually take to the road and give literally hundreds of crime-busting presentations to seniors groups of all shapes and sizes, all over the UK throughout the year.

Typically we are invited to gatherings of seniors up to 50-strong in community centres and church halls, where we will address audiences which are made up of; Friendship Clubs, Women's Institutes, Faith Groups and Veterans Clubs, to name just a very few.

Our Public Presentation Team is made up of confident public speakers who are adept at putting a message across to a mixed audience. Our sessions incorporate PowerPoint presentations and hand-outs with all required equipment provided by the charity (laptop & projector).

If you fit the bill and/or are seeking to improve your public presentation skills at the same time as helping the vulnerable, get in touch today. Of course we offer full training and you will initially shadow an experienced presenter who will support you all the way.

Please visit our website for further information about our charity and what we do at: [www.sclt.us](http://www.sclt.us) or give us a call for more information on 07788236804.

The Senior Citizen Liaison Team (SCLT) were recently announced as winners of the 'Understanding & Engaging with Communities' category at the 2014 Civil Service Diversity & Equality Award.
