5. Expression of Interest Form

1. Introduction

“Our vision is a brilliant, modern, inclusive and high-performing Civil Service. One that makes the best of its people, gives them the opportunity to develop and progress, whoever they are, and provides world-class public services. **Civil Service Local** offers the opportunity to participate in creating this vision.

We won’t succeed without inspiring, confident and empowering leadership. But we also won’t succeed without you. We need your commitment, your ideas, your imagination and your talent.”

Sir Jeremy Heywood

Cabinet Secretary and Head of the Civil Service

WELCOME TO CIVIL SERVICE LOCAL NORTH EAST, YORKSHIRE AND THE HUMBER

We are a small team, hosted by the Cabinet Office based in the North East, Yorkshire and the Humber, which is home to over 60,000 civil servants from 40 departments and agencies. Our purpose is to bring together departments and agencies within our locality, be a catalyst for collaboration and new ways of working together, supporting the civil service in meeting current and future challenges. We recognise that to become the brilliant civil service to which we all aspire required effective leadership, increased capability and more

innovative and inclusive ways of working together.

As a small team we recognise that we cannot hope to make a significant difference alone. We have a range of project roles and invite you to consider working with us. This may be as a project for development, as your corporate contribution to the wider civil service or to act for your local community.

Section 2 outlines our strategic themes.

Section 3 contains a number of roles for each of our themes – Connect, Citizens, Capability and Communications.

Section 4 contains some of our NEYH successes from 2017-18, which you could be involved in this year through these roles.

Civil Service Local is brilliant, being Perm Sec Champion for the NEYH is one of the proudest parts of my job

Claire Moriarty

Our Themes

Our six strategic themes, **Citizens, Connect, Capability, Innovate, Inspire and Invest** guide our approach. Each theme is underpinned by a business objective and from these we developed the projects and programmes that we delivered across the year.
